a petition to view and lay out a public road in Blacklick Township was presented to this Court on the second day of July 1894, and that Viewers were duly appointed to view the ground &c.,

That said public road was to begin at a point in the public road leading from Henry Campbell's to Duncans Mills at a point fifty five feet rods east of the George School House on said road in Blacklick township and to end at the head of Third Street in the Village of Vintondale, in the Township of Jackson. Said petition and the report of the Viewers thereto being filed to No 8 June Sessions 1894.

viewers, to view the ground proposed for said road, and if they view the same, and shall agree that there is occasion for such road, they shall proceed to lay out the same, having respect to the shortest distance and the best ground for a road, and in such manner as shall do the least injury to private property, and also be as far as practicable, agreeable to the desires of the petitioners, and that they make a report of their proceedings to the next Court of Quarter Sessions to be held for said County, stating particularly whether they judge the same necessary for a public or private road, together with a plot or draft thereof, and the courses and distances, and references to the improvements through which it may pass.

NOTE. "It shall be the duty of all persons appointed in the several counties of this Commonwealth to view and review any public or private road or bridge, if they shall decide in favor of locating said road or bridge, to endeavor to procure from the person or persons over whose land such location may be made releases from all claims for damages that might arise from the opening of such road or the building of such bridge; and in every case where said viewers shall fail to procure such releases, and it shall appear to them that any damages will be sustained, it shall be their duty to assess the damages and make report thereof signed by a majority of their number, and return the same, together with all releases obtained, to the Court of Quarter Sessions, and the damages so assessed shall be conclusive, or may be subject to appeal, review or modification, as may be provided by existing laws in the different counties of this Commonwealth."

"The persons appointed as aforesaid shall view such ground, and if they shall agree that there is occasion for a road, they shall proceed to lay out the same, having respect to the shortest distance, and the best ground for a road, and in such manner as shall do the least injury to private property, and also be, as far as practicable, agreeable to the desire of the petitioners."

"The viewers, as aforesaid, shall make report at the next term of said Court, and in the said report shall state particularly: First, who of them were present at the view, second, whether they were severally sworn or affirmed; third, whether the road desired be necessary for a public or private road; they shall also annex and return to the Court a plot or draft thereof, stating the courses and distances, and noting briefly the improvements through which it may pass; and, whenever practicable, the viewers shall lay out the said roads at an elevation not exceeding five degrees (except at the crossing of ravines and streams), where, by moderate filling and bridging, the declination of the road may be preserved within that limit."

R E P O R T O F V I E W E R S .

To the Honorable, the Judges of the Court of Quarter Sessions of
Cambria County, Pennsylvania.

We, the undersigned members of the Board of Viewers of said county, appointed by your honorable court, upon the attached order, for the purposes therein specified, respectfully report:-

That, having given due notice of the view and of the time and place of meeting of the viewers; to the Commissioners of Cambria County and to the Supervisors of the Townships of Blacklick and Jackson and to the Council of the Borough of Vintondale; by having them accept service of notices hereto attached, and to the traveling public by printed hand bills posted in public and conspicuous places at and near the terminal points of the road to be viewed: and having been first duly qualified according to law to perform the duties of our appointment faithfully, impartially and to the best of our judgment and ability; we met in accord with the notices so given and having carefully viewed the premises are of the opinion that a public road between the points of beginning and ending noted on the attached order and shown on the plot or draft hereto attached and made a part of this report, is not necessary for the accomodation of the traveling public and should be vacated in accordance with the prayer of the petitioners. In the first place there appears to be very little if any necessity for a road between the points noted and even such a necessity existed, the road as laid out would not be practical; and if any necessity does exist it is not a necessity for a public road.

The location of the road as laid out and now desired to be vacated takes the following courses and distances, as noted on the attached draft, viz:- Beginning at the point noted on the order of court on the public road leading from Henry Campbell's to Duncans Mill and thence; following a kind of a private road for some distance past the houses of Joseph Cramer and Edward Walker and for the remainder of the distance through unimproved land untill about the point where it crosses the borough line of Vintondale Borough where it twice crosses the railroad tracks between that and the terminal point in said borough; these courses and distances -
