

IN THE COURT OF QUARTER SESSIONS OF CAMBRIA COUNTY.

TO THE HON. FRANCIS J. O'CONNOR, PRESIDENT JUDGE OF SAID COURT:

We, the undersigned viewers named in the within order, dated the 23rd day of April, A. D., 1907, respectfully report:

That we met on the third day of August, A. D., 1907, at the intersection of the Solomon's Run Road and the road in question, leading from said Solomon's Run Road to the Jerry Walter's Road, in the Township of Stonycreek, County of Cambria, Pa.

We viewed the site and locality of the road proposed to be vacated, making a personal inspection of the ground between the points mentioned on the accompanying map.

After a careful examination we found the present condition of the road to be of such a nature that it is impassable for about one third of the total distance between the points above mentioned. The principal places where the road is in very bad condition are shown and referred to on the accompanying map.

Even though it may result in a considerable expenditure of money to place this road in good condition, we feel that as there are a few persons abutting upon this road who cannot well afford to have it abandoned that it is right and proper to maintain this road and put it in a passable condition.

Respectfully submitted,

C. P. Collins.

L. P. Collins..... surveyor, and Bernard Nees and Wm. Griffith.....

viewers, to view the ground proposed for said road, and if they view the same, and shall agree that there is occasion for such road, they shall proceed to lay out the same, having respect to the shortest distance and the best ground for a road, and in such manner as shall do the least injury to private property, and also be as far as practicable, agreeable to the desires of the petitioners, and that they make a report of their proceedings to the next Court of Quarter Sessions to be held for said County, stating particularly whether they judge the same necessary for a public or private road, together with a plot or draft thereof, and the courses and distances, and references to the improvements through which it may pass.

By the Court.

Attest:

C. E. Trovill....., Clerk.

NOTE. "It shall be the duty of all persons appointed in the several counties of this Commonwealth to view and review any public or private road or bridge, if they shall decide in favor of locating said road or bridge, to endeavor to procure from the person or persons over whose land such location may be made releases from all claims for damages that might arise from the opening of such road or the building of such bridge; and in every case where said viewers shall fail to procure such releases, and it shall appear to them that any damages will be sustained, it shall be their duty to assess the damages and make report thereof signed by a majority of their number, and return the same, together with all releases obtained, to the Court of Quarter Sessions, and the damages so assessed shall be conclusive, or may be subject to appeal, review or modification, as may be provided by existing laws in the different counties of this Commonwealth."

"The persons appointed as aforesaid shall view such ground, and if they shall agree that there is occasion for a road, they shall proceed to lay out the same, having respect to the shortest distance, and the best ground for a road, and in such manner as shall do the least injury to private property, and also be, as far as practicable, agreeable to the desire of the petitioners."

"The viewers, as aforesaid, shall make report at the next term of said Court, and in the said report shall state particularly: First, who of them were present at the view, second, whether they were severally sworn or affirmed; third, whether the road desired be necessary for a public or private road; they shall also annex and return to the Court a plot or draft thereof, stating the courses and distances, and noting briefly the improvements through which it may pass; and, whenever practicable, the viewers shall lay out the said roads at an elevation not exceeding five degrees (except at the crossing of ravines and streams), where, by moderate filling and bridging, the declination of the road may be preserved within that limit."
