that having first been sworn we met at the site of the proposed bridge and found that the bridge which
formerly stood at the proposed site was entirely washed away by the flood of 31 May 1889. We therefore re-
commend the building of said bridge by the county as the burden is more than the township is
able to bear as the approaches will cost heavily. We further recommend that said bridge be made of
iron with one span of one hundred feet, and that the abutment on the north side be moved back at
least eight feet. A sketch of the site of the proposed bridge accompanies this report. We ask that the
prayer of the petition be granted. Witness our hands and seals this 9th day of October 1889

Beginning at a point on the Township road leading from Hastings Borough to Jacob Blosser where line of lands of Jacob Hartman and Adam Miller crosses said road thence by line of said Hartman & Miller South four and one half degrees west fifty six perches to mouth of Street in Hastings Borough and line of said Borough which in our opinion is necessary for public travel in consequence of the erection of the coal tipple erected so close to old Township roads of frightening horses and teams while dumping the coal at the Standard block and tipple in our opinion will be unsafe for travelers to pass we also further report that as this view follows line of lands with some ten rods improved on the West side of line or view and laid out in town lots and built upon and the balance being unimproved land we report no damages all of which is respectfully submitted. according to appointment and having been sworn we re-viewed the ground as laid out from

to be located on a good ground as could be found to avoid the heavy grades that are in
the old roads - We therefore recommend the opening up of said road as laid out by
the viewers for a public road for public travel. - Further we do not consider the am't.
of damage allowed Wm. J. Buck by the viewers near sufficient to remunerate him
for an amount of fencing loss of ground and manner in which it cuts up his farm. We

Report of Inspectors.

We the undersigned Inspectors appointed by the Court of Quarter Sessions of Lancaster County to inspect
the Bridge named in the annexed order do report, That having been first sworn according to law we
did view and inspect the said bridge and find the substructure composed of stonework and mason-
ry well built and constructed in a good and workmanlike manner in accordance to plans and
specifications in every way perfect. And we further find the superstructure or part built by the Mass.
low Bridge Company to be good substantial and in accordance to plans and specifications. Except
the planks which we consider are not first class there being considerable rot and some bark on
some of them and having some cracks or windshakes. And further we find the end of the bridge
nearest Elton (west end) is the thickness of planks higher than the masonry while the other end is level with
the masonry as we think both ends should be. We estimate that there should be an abutment of twenty
five dollars of 25⁰⁰ from the price to be paid for said bridge on account of said defects incomplete and
imperfect condition of said named parts. In witness whereof we have hereunto set our hands and

We the undersigned persons appointed by the within order of Court to view, lay out
and widen Maple Avenue, a street in the Borough of Morrellville as per view survey
and report of viewers to the Court in 1876 fixing the width of said street of thirty feet
between Chandler Street and Laurel Hill Street. do respectfully report that after
giving due legal notice by hand - bills posted in said Borough and by personal
notice served upon land owners whose land adjoin or abut upon said Maple
Avenue did meet at the Municipal Building in the Borough of Morrellville
on the 6th day of March A.D. 1894 at 10 o'clock A.M. the following named

all of which are free holders and having all been severally sworn or affirmed
in pursuance of said order we have viewed, laid out and do return for Public use
to the full width of thirty feet the following street. Beginning at the intersection
of Maple Avenue with Chandler Street thence on the one side by land of
Gale Heslop, William C. Rhodes, J. F. Strayer & G. C. Tomb to an alley thence
by John A. Thomas George Ross, and Jacob Bowers on the other side by
land of J. F. Strayer, Stephens Heind Aaron Strayer Thomas Leadbetter
Levi Edwards, Anna Rogers, and Joseph Stibick North thirty-five (35)
degrees, and ten (10) minutes East, eight hundred and five (805) feet having
the width of thirty feet to Laurel Hill Street a plot or Draft whereof is
hereto annexed. And we do further represent that in viewing said street
that we took into consideration both the advantages and disadvantages caused
to the several property owners whose land adjoin said street. And we do respectfully
report that the advantages to the property owners along said street by the widening
of said street is equal to any damages which any of said property owners may have
sustained by reason of the widening of the said Maple Avenue. And we do further
specifically report that we find that the widening of said street only effects
the property of Joseph Stibick in any way that all the other property owners along said street have set their fences back
so that none of said fences are on the line of said street except the fence of Joseph Stibick which is shown in
said Draft attached and we are of the opinion that Joseph Stibick will receive advantages by the widening
of said street equal to any damages he may have sustained and therefore we find that none of said property
owners along said Maple Avenue are entitled to damages nor liable to the assessment for benefits which said
street so as aforesaid laid out and widened we are of the opinion is necessary for a public street
of said Borough to the full width of thirty feet as shown by said draft. Witness our hands this

Report of Viewers

 in the within order mentioned respectfully report that having given due and timely notice by
 three printed & written notices posted in three public places adjacent to said bridge
 of time and place of re-view a copy of said notice is hereto attached and we do
 further report that having met at time and place designated by said notice and after
 all being sworn and sworn according to law we proceeded to the duties of our
 appointment and did re-view the former view and taking in view of the re-
 moval of buildings and grounds that would be occupied by said bridge on
 East end as well the fill on west side of Clearfield would cost in the
 neighborhood of sixteen hundred dollars or thereabouts the ground on sight of
 bridge being lower must be raised therefore we vacate former view and supply
 same as follows beginning at a Post North West of old bridge ten feet below
 old bridge thence South fifty eight and one half degrees East two spans of
 seventy feet to cross Clearfield Creek at the corner of Clearfield, Bear
 and Gallatin Townships where the public road from Chest Springs to Altoona
 crosses said Clearfield Creek and we also further report to the Court that
 after proper examination change of location would be improvement and a saving
 of expense in the erection of said bridge and that said bridge is necessary to
 accommodate public travel and that the expense of erecting said bridge would
 be attended with more expense than is reasonable said Township should bear.

 notices and after all first being affirmed and sworn according to law to perform
 our duties with fidelity we did view and lay out the following for a public
 road or highway viz: Beginning at a point on line of land of Pennsylvania North
 Western Rail Road Company and Mount Zion Ev. Lutheran Church at a point
 on public road leading from Alleman's mills to Faller's timber thence south

Report of Viewers

We the undersigned viewers appointed by the annexed order do report: That due public notice
of the time and place of the meeting having been given as required by law. We met on the day named
to wit, the 14th day of May, 1894, and having been severally sworn or affirmed before entering
upon the discharge of our duties we proceeded to view the premises described in the order
and having viewed the same we agree that there is occasion for widening the road as
desired by the petitioners and that it is necessary to widen the same for the accom-
modation of the traveling public. Beginning at a point on the road leading from
Kichtown to Carrolltown at the Church in the Village of Kichtown we ran South
forty-six and one-fourth degrees West along lands of John Soisson and Nicholas
Lambourn and the Catholic Church and Cemetery 1276 feet to John Soisson's line
this part of the road being 34 feet wide and we did not widen this part continuing
thence South 43/4 degrees West along lands of John Soisson and Nicholas Lambourn
470 feet to line between John Soisson and Mrs. Pfeister, and finding this part of
the road to be but 19 feet wide at this end we widened the same on Lambourn's
side so as to make all of this part of the road 34 feet wide and back at the other
end at the turn of the road as the road is but 23 feet wide we widened it on
Lambourn's land so as to make it 36 feet wide; thence continuing from Soisson
and Pfeister's line South 5 1/4 degrees West along line of Mrs. Pfeister and Nicholas
Lambourn 607 feet we widened the road on Lambourn's land so as to make it
34 feet wide and thence continuing South 41 1/2 degrees West 707 feet through
Mrs. Pfeister's lands to lands of Mrs. John Kirsch, and finding this part of the
road 34 feet wide we did not disturb or widen it: which said roads so as
aforesaid viewed, widened and laid out is shown by a plot or draft hereto
attached. We further report that in our judgment it does not appear that any
damages have been or will be sustained to any property or to the owners of
any property by reason of widening the said roads and we have therefore not
assessed any damages. Witness our hands this 14th day of May A.D. 1894

 mentioned respectfully report: That having been present at the view thereof and
 having all been first duly sworn we have viewed the said road and after
 due examination of the premises we find that there is but little need for
 using such road by the public that the opening of the same as laid out would
 be attended with greater expenses than Saugehanna Township could reasonably
 bear that the damage to private property would be unusually great and that
 no part of the said road can be vacated and supplied with out increas-
 ing the distance doing greater injury to property and causing greater expense in opening
 therefore for the reasons here stated we are of opinion that the said road ought
 to be vacated. A draft of the same is hereto attached. Witness our hands this

Report of Viewers

We the undersigned, persons appointed by the within order of Court to view the road therein mentioned, respectfully reports: That having been presents at the view of the said road and having all been duly sworn, we have viewed the said road beginning at a point on the so called "Philipsburg road" on improved land of Milton Douglass, Thence through said land south 35° east 29 rods; thence south 51° east, at 52 rods intersecting the public road leading from Chest Springs to Ashville, as shown by annexed draft, After due inquiry and examination of the premises, we find the following objections against the said road, 1st It passes just outside Chest Springs and is but little used 2. It is not in good condition for public travel. 3 It is injurious to private property, occupying about one acre of Mr Douglass' best farm land. For these reasons we are of opinion that the said road is useless, inconvenient and burdensome to the inhabitants of Clearfield Twp and therefore ought to be vacated
