Report of Viewers

The undersigned viewers named in the within order respectfully report; 1st - That notice to the public of the time and place of meeting of Viewers were put up in the most public places along the route of the road to be vacated, ten days before the time fixed for the holding of said view, and copies of notices so posted are hereto annexed and made part of this report. Written notices to the Supervisors of Upper Yoder Township and to the Street Commissioners of Westmont Borough, of the time and place of the meeting of Viewers were given more than ten days previous to the date of the view. A copy of said notice is also annexed and made part hereof. 2nd - We, the undersigned Viewers, were severally duly sworn to well and truly perform our duties as Viewers, impartially and according to the best of our judgment, and a true report to make, prior to the making of said view, which oath as sworn and subscribed by us is hereto annexed and made part hereof. 3rd - That we met at the time and place specified in the notice to view to wit: on Monday, the eleventh day of November, 1907, at nine o'clock A. M. at the blue House of the Johnstown Country Club, in Westmont Borough, on the line of said road, all of said Viewers being present. 4th - That we viewed this road proposed to be vacated, and are of the opinion that the same is unnecessary, inconvenient and burdensome, owing to the number of hills and heavy grades in the same; and we therefore report that the same is unnecessary, inconvenient and burdensome; and that the portion of said road specified in said order to view and described by courses and distances following, be vacated, viz: Beginning at the western line extended of an intersecting public road distant at its southerly end thirty feet (30 ft.) from the north-western corner of land of the Citizens Cemetery Association in Upper Yoder Township, and distant at the northern side seventy-five feet (75 ft.) from the northwestern corner of the said Millcreek Road and Third Avenue in the Borough of Westmont; thence south eighty-six (86) degrees west, four hundred and eighty-five feet (485 ft.); thence south eighty-one and one-half (81½) degrees west three hundred and fifty-one feet (351 ft.); thence south seventy-eight and one-half (78½) degrees west five hundred and fifty feet (550 ft.); thence south seventy-four (74) degrees west nine hundred and twenty-one feet (921 ft.); thence north fifty-eight (58) degrees west two hundred and four feet (204 ft.); thence north twenty-two (22) degrees west one hundred and twenty-nine feet (129 ft.); thence north eighty-five (85) degrees west one hundred and sixty-six feet (166 ft.) to the easterly side of Ninth Avenue in the Borough of Westmont as extended across said Millcreek Road, a draft of said portion of said road being hereto annexed and made part of this report. Your petitioners do further report that there are public streets of easy grade connecting with the said Millcreek Road beyond the termini of the portion hereby recommended to be vacated, which render that part of said road to be vacated useless, inconvenient and burdensome. In witness whereof, we, the Viewers mentioned in said order have hereunto set our hands and this fifteenth day of November 1907.

Report of Viewers

We, the undersigned viewers appointed by the within order of Court to view the road therein named, and to
 change the unpaved part thereof, respectfully report. That all of said viewers, appointed by said order of Court,
 met on the 24 th day of August, A. D., 1908, at 10 o'clock A. M. on said day, pursuant to due and legal
 notice given to all parties required by law to have notice, a copy of said notice, together with the
 services thereof, being hereto attached and made a part of this report. After having been severally
 sworn in pursuance of said order, we viewed that portion of said road which remains unpaved,
 as set forth in said order, and all being of the opinion that a better, less expensive and more suitable
 location could be secured, we proceeded to change said unpaved part as shown by the prints hereto
 attached and made a part hereof, and laid out a road as follows, to wit, Beginning at a post
 at end of road now opened, on lands of the Mountain Coal Company in Broyle Township, North
 Sixteen Degrees East 43 feet from a Birch; thence North 54 degrees East 301 feet to a post; thence
 North 86 degrees East 524 feet to a point; thence crossing South Fork creek to Adams Township, South
 42 degrees East 216 feet to a post; thence South 59 degrees East 292 feet to a point on bed of abandoned
 railroad; thence North 60 degrees East 176 feet; thence continuing North 71 degrees East 146 feet to a post;
 thence South 89 degrees East 1877 feet, along bed of said abandoned railroad, to a post; thence
 continuing South 76 degrees East 662 feet to a post; South 68 degrees East 316 feet to a post; thence
 South 64 degrees East 392 feet to a post; thence South 62 degrees East 498 feet to a post; thence South
 51 degrees East 427 feet to a post on land of Thomas Michaels Estate; thence South 36 degrees East
 187 feet to a post; thence South 82 degrees East 205 feet to a post; thence South 71 degrees East 510 feet
 to a post on a public road, leading from Dumble to Wilmore, said post being located North 12 de-
 grees East 83 feet from a water plug, on and along side of said road. The location of the unpaved
 part, of said road, together with the location of said road as herein changed is fully shown by
 the draft hereto attached and made part of this report. We further report that we endeavored to obtain
 from all the owners of land upon which said road is located, releases of damages to arise by reason
 of such location. We procured such release from the Beaver Run Coal Company, and failed to obtain
 releases from the other Owners to wit, the Mountain Coal Company and the Thomas Michaels heirs.
 We allow no damages to them because we consider the advantages which will accrue to their respect-
 ive properties by reason of the road are equivalent to all damages which will be sustained by them.
 We annex hereto the said release obtained by us and also a draft and blue print required by law
 and Rule of Court, showing the location of the road as laid out, as well as the location from which
 said road is changed, stating the courses and distances, and noting briefly the improvements.

We, the undersigned persons appointed by the attached order of court to view and lay out the road therein mentioned, respectfully report: That after having been severally sworn to perform the duties of our appointment impartially and according to the best of our judgment, we, being all of said viewers appointed by said order, met on the 30th day of April, 1909, at ten o'clock A. M. at the point of beginning on the Frankstown Road, near Lamb's Bridge, in said township, and viewed the site and locality of the road proposed to be laid out, making a personal inspection of the ground between the points designated in the petition and order. That notice of the time and place of said meeting as required by law was duly given, that is to say, at least six days' notice in writing to the county commissioners, notice to the land owners through whose land the proposed road passes; notice to the supervisors of the township of Adams, as well as notice to the public by at least ten printed notices posted in the most public places in the vicinity of the ground viewed at least ten days before April 30, 1909, the date fixed for said meeting. Baker in Johnstown, Pa., on the day of June, 1909. That having viewed the ground as aforesaid, we agree that there is occasion for the road as desired by the petitioners, and that the same is necessary for a public road; and, having regard to the shortest distance, the best ground for such a road, and the least injury to private property, we lay out and return for public use the following described road, to-wit: Beginning at a point on the Frankstown Road, a public highway, near Lamb's bridge, in Adams Township, and at a post south forty-three degrees west thirty-six feet from corner of Blacksmith's Shop; thence in an easterly direction through lands of J. Report of Viewers

The undersigned viewers appointed by your honorable court to view and lay out a public road in Portage Township, in accordance with the directions contained in the annexed order to view, do respectfully report and return:— (1). That having given public notice as required by law by written notices posted in the most public places in the vicinity of the ground to be viewed, and in all parts of said township, and having also served proper notice upon the supervisors of said township, and upon the county commissioners, as appears in the acceptances of notice hereto attached, and having been first sworn to perform their duties impartially and according to their best judgment, as appears from affidavit hereto attached, they met at the time and place indicated in said notice, to wit, at the Puritan schoolhouse in said Portage Township on Thursday, the 20th day of May, A.D. 1909, at 10 o'clock in the forenoon, and from there proceeded to the discharge of their duties under said appointment. (2). There were present at said meeting all three (3) of the road supervisors of Portage Township, to wit: Charles Mangus, Albert Kynkoop, and Jacob Kreitzberger, and also a number of the petitioners all of whom accompanied the viewers in making a personal inspection of the ground between the points designated in the petition and order to view. (3). They are of the opinion and agree that a public road between the points mentioned in said order is necessary, and that a public road should be laid out according to the accompanying draft. They therefore lay out, have surveyed, and return for public use a road as follows:—Beginning at a point on the public road in the Township of Portage, leading from Puritan to Salt Bluffs, indicated by a post at the side of said road near an old bridge crossing Trout Run, said point being south fifty-four (54) degrees thirty (30) minutes east 151 feet from a culvert in said public road crossing a small stream, thence by a course south two (2) degrees thirty (30) minutes east, crossing said Trout Run, a distance of one hundred fifty-three (153) feet to an iron pin; thence south sixty-eight (68) degrees thirty (30) minutes west a distance of ninety-four (94) feet to a post; thence south eighty-nine (89) degrees two (2) minutes west a distance of five hundred twenty (520) feet to a post; thence south eighty-one (81) degrees fifteen (15) minutes west a distance of one hundred sixty-eight (168) feet to a post; thence south sixty-eight (68) degrees thirty (30) minutes west, crossing a small stream, a distance of three hundred one (301) feet to a post; thence south forty-nine (49) degrees, forty-five (45) minutes west a distance of 278 feet to a point indicated by a post on the public road in said township, leading from Puritan to the Frankstown road, said post being north twenty-one (21) degrees west a distance of five hundred twenty-one (521) feet (approximated in the petition and order at one hundred eighty (180) yards), from the Mountain schoolhouse all of said road being through unimproved woodland belonging to John B. Martin, who had, prior to said view, been given due notice, but who was not present at the said view, and who is a non-resident of said township; consequently the viewers could not obtain a release of damages from him. They are of the opinion, however, that no damages will result to Mr. Martin from the laying out and opening of said road, and consequently have awarded none. The grades on said road will not exceed at any place, five (5) degrees (4). The viewers further recommended that said road be approved of the width of thirty (30) feet with the lines herein given and shown on the annexed draft, as plat, as the center line of the road. Witness our hands this 20th day of May, A.D. 1909.

Report of Viewers

The undersigned road viewers named in the within order, respectfully report: First. That we met at the time and place specified in the notice, to wit: on the 25th day of August, 1909, at nine o'clock A.M. at the point of beginning, to wit: at the junction of the Berkeley Road and the Harshberger Road, both public roads in the Township of Upper Yoder, and completed our labors on said date. Second. That notices required by the law were duly given, that is to say, written notices of the applications to the board of Quarter Sessions of said Cambria County, for the laying out, opening and constructing of said road for public use, to the Supervisors of the said Township of Upper Yoder, and also notice of the time and place of the meeting of viewers to the Supervisors of the said Township of Upper Yoder, copies of which notices are hereto annexed and made part of this return; that public notice by written or printed advertisements of the time and place where we were to meet for the purpose of locating the road was given at least ten (10) days before such meeting, as required by the Act of Assembly of the 6th day of April, 1843, P.L. 177 and the Act of Assembly of the 12th day of March, 1879, P.L. 258, copies of which notices are hereto annexed and made part of this return; that at least six days notice in writing of the time and place of holding said view was given to the County Commissioners of the said County of Cambria, as required by the Act of Assembly of the 3d day of April, 1899, P.L. 26, a copy of which notice is hereto annexed and made part of this return; and that written notice was given to the Supervisors of said Township in accordance with the Act of 29th of March, 1905, P.L. 70, as shown by notice. Third. That we were severally sworn or affirmed, according to law and before proceeding to discharge our duties, which original oath or affirmation is hereto annexed and made part of this return. Fourth. That we viewed the site and locality of the road proposed to be laid out, making a personal inspection of the ground between the points designated in the petition and order, on the 25th day of August, 1909. Fifth. That we are of the opinion and agreed that a public road between the points mentioned, is necessary, and that we authorize the laying out of a public road according to the accompanying draft. We, therefore lay out and return for public use a road as follows: Beginning at a point at the Western end of a public road, to wit: the Berkeley Road, said point being at the junction of the said Berkeley Road and the Harshberger Road, also a public road, both in said Township; thence North eighteen (18) degrees no minutes West ten hundred and twelve (1012) feet to a post; thence North forty-five (45) degrees and fifteen (15) minutes West six hundred forty (640) feet to a post; thence North seventy (70) degrees fifty-two (52) minutes West two hundred forty-six (246) feet to a post; thence North forty (40) degrees no minutes West three hundred thirty (330) feet to a post; thence North forty-five (45) degrees thirty (30) minutes West three hundred sixty (360) feet to a post; thence North twenty (20) degrees and thirty (30) minutes West Three hundred + Thirty three feet to a post; thence North Twenty-six (26) degrees Thirty Minutes East Eighty nine feet to a post; thence North forty-six (46) degrees and fifteen (15) minutes East Eight hundred fifty-five (855) feet to a post on the Hochstetern Road, a public road in said Township, which post is the junction of the proposed road and the said Hochstetern Road, all of which proposed road is within the said Township of Upper Yoder, as will appear on draft hereto attached and made part of this return. Sixth. We further report that we endeavored to obtain from all the owners of land upon which the said road is located, releases of damages to arise by reason of said locations; and that we procured such releases from the following owners, to wit: the Johnstown Water Company, Adams Kepler and John H. Miller; that we were unable to secure a release from J. W. Otto, but that we assess his damages at nothing. Seventh. That in our opinion the said road laid out by us is of such public necessity and utility that the costs of this proceeding ought to be paid by the county. Eighth. That we annex hereto all releases of damages obtained by us, as above mentioned, and also plot or draft, above referred to, showing the location of the said road laid out, stating the courses and distances and noting briefly the improvements. Witness our hands the fourth day of September A.D. 1909.

Report of Viewers

The undersigned road viewers named, in the within order, respectfully report: First, That we met at the time and place specified in the notice, to wit: on the 24th day of November, 1909, at 10 o'clock A.M. at the point of beginning, to wit: at the "Octagon" House at or near the junction of the Davidsville Road and the Lower Route of the condemned Valley Pike Company Turnpike, mentioned in said notice, both public roads in the Township of Upper Yoder, and completed our labors on said date. Second, That notice required by law were duly given, that is to say, written notices of the application to the board of Quarter Sessions of said Cambria County, for the laying out, opening and constructing of said road for public use, to the Supervisors of the said Township of Upper Yoder, and also notice of the time and place of the meeting of viewers to the Supervisors of the said Township of Upper Yoder, copies of which notices are hereto annexed and made part of this return; that public notice by written or printed advertisements of the time and place where we were to meet for the purpose of locating the road was given at least ten (10) days before such meeting, as required by the Act of Assembly of the 6th day of April, 1843, P.L. 177 and the Act of Assembly of the 12th day of March, 1873, P.L. 258, copy of which notice is hereto annexed and made part of this return; that at least six days notice in writing of the time and place of holding said view was given to the County Commissioners of the said County of Cambria, as required by the Act of Assembly of the 3rd day of April, 1899, P.L. 26, a copy of which notice is hereto annexed and made part of this return; and that written notice was given to the Supervisors of said Township in accordance with the Act of 29th of March, 1905, P.L. 70, as shown by notice hereto attached and made part hereof. Third, That we were severally sworn or affirmed, according to law and before proceeding to discharge our duties, which original oath or affirmation is hereto annexed and made part of this return. Fourth, That we viewed the site and locality of the road proposed to be laid out, making a personal inspection of the ground between the points designated in the petition and order, on the 24th day of November, 1909. Fifth, That we are of the opinion and agree that a public road between the points mentioned, is necessary, and that we authorize the laying out of a public road according to the accompanying draft. We therefore lay out and return for public use a road as follows: Beginning at a point the intersection of the Lower Route of the condemned Valley Pike Company Turnpike and the Davidsville Road, both Township roads in said Upper Yoder, said point of intersection being Ten hundred fifty-four (1054) feet from the intersection of said Davidsville Road and the Upper Route of the condemned Valley Pike Company Turnpike, also a public road in said Upper Yoder Township; thence south eighty-one (81) degrees thirty (30) minutes west five hundred eighty (580) feet to a point on the said Upper Route of the condemned Valley Pike Company Turnpike, which point is the junction of the proposed road and the said Upper Route of the condemned Valley Pike Company Turnpike, all of which proposed road is within the said Township of Upper Yoder as will appear on the draft hereto attached and made part of this return. We further report that the grade of the proposed road, to wit: four and one-fourth ($4\frac{1}{4}$) degrees is the lowest grade that can be had on a road between the said points of beginning and ending as herein given. Sixth, We further report that we endeavored to obtain from all the owners of land, upon which said road is located, releases of damages to arise by reason of said location; but that we were unable to secure any such releases; all the said owners of land being S. H. Miller, Max Rex, Lucretia Carpenter and the Cambria Iron Company; and that we assessed the damages of the said S. H. Miller, the said Max Rex, the said Lucretia Carpenter and the said Cambria Iron Company at nothing, for the reason that we find that the benefits accruing to said property owners bordering on the said road fully compensate them for any loss resulting from the construction of said road.

Report of Viewers
To the Honorable Francis J. Connor, President, Judge of the Court of Quarter Sessions of Cambria County, Pennsylvania.

We the undersigned members of the Board of Viewers, appointed by your Honorable Court as shown by the annexed order, respectfully report:

That, in pursuance of our said appointment, after having given due public notice of the view and of the time and place of meeting of the viewers, by notifying the supervisors of the Townships of Jackson and Blacklick and by printed hand bills posted in public and conspicuous places at and near the termini of the proposed new road, we met in accordance with the notice given and having been first duly qualified according to law to perform the duties of our appointment faithfully. We viewed the premises and being of opinion that there is occasion for the proposed new road we proceeded to lay out the same according to the following courses and distances, viz: Beginning in the public road leading from the Stone Pike to Nanty Glo, Chemical Works, at a point where the same touches the south side of the Ebersburg and Blacklick Branch of the P. R. R. thence crossing the said branch of the P. R. R. and running in Jackson Twp. During the view of the ground proposed for said road, the Attorney for the Township and the Supervisor appeared and presented remonstrances against the laying out of the said road signed by a number of citizens and the Supervisors of the Township and yet not one of the Supervisor, nor a single citizen appeared on the ground to point out to the Viewers why they regarded the road as unnecessary or to give them an opportunity to question them concerning the facts set forth in the remonstrances upon which they based their statements of fact set forth in said remonstrances! The said remonstrances are filed herewith together with a brief statement of some of the reasons why the Viewers failed to consider the remonstrances favorably.

All of us met in accordance with the notice so given and having been first duly qualified according to law to perform the duties of our appointment faithfully, impartially and to the best of our ability; we viewed the premises and are of opinion that the whole road between the points or termini specified in the order of Court is not necessary, for the use and convenience of the travelling public, but a certain portion thereof, to wit:- that portion of the road lying between the place of beginning at the City line where the same intersects J Street and ending at a point marked "A" on the plot or draft hereto attached, and made a part of this report, which said point is at the corner of land of D. Felix, where his land corners on the property of C. C. Grazer, is necessary for the convenience of a great number of citizens located along that portion of the route of the said road which takes the following courses and distances:- Beginning at the point of beginning above noted, thence S. 11 degrees E. through and over lands of parties as noted on the draft herein above referred to, 660 ft., thence through lands of other parties noted on said draft, S. 14 degrees E. 88 ft. S. 50 degrees N. 205 ft., thence 10 1/2 degrees E. 45 1/2 ft., S. 49 degrees E. 172 ft., S. 65 1/4 degrees N. 247 ft., S. 28 degrees E. 97 ft., S. 3 1/2 degrees West 335 feet, S. 14 1/2 degrees N. 67 ft., S. 47 degrees N. 180 feet, S. 80 degrees N. 190 ft., N. 57 1/2 degrees N. 190 ft., N. 73 1/2 degrees N. 193 ft., S. 59 degrees N. 570 ft., S. 41 1/2 degrees N. 365 feet, S. 22 1/2 degrees N. 516 ft., S. 32 degrees N. 800 ft., S. 58 degrees E. 715 ft., S. 30 1/2 degrees N. 1384 ft. and S. 60 degrees E. 1400 feet to place of ending noted in the attached order of Court.

Therefore we recommend that the portion of said road, as laid out between the place of beginning, as noted in the said order and shown on the attached draft, and the point marked "A" shown on the said draft, be directed to be opened for the use of the public and that portion of the road lying between the point "A" on said draft and the place of ending thereon noted, be left unopened as the latter part of said road would, not only be exceedingly expensive to construct, as well as very hilly, but also would be of very little use to the traveling public or citizens living along the route of this road as laid out.

The viewers having failed to secure releases of damages from the parties through and over whom the route of the proposed road passes, have assessed damages as follows, viz:-

To the Honorable Martin Brigham Stephens, Pres. Judge of the Court of Quarter Sessions for Cambria County, Pa.

We the undersigned members of the Board of Viewers of Cambria County appointed by your Honorable Court to view certain pieces of road on the road leading from Gallitzin to Ashville in Gallitzin Township as noted in the Order of Court attached, and to so direct, respectfully report: That having given due notice of the View and of the time and place of meeting of the Viewers to the Commissioners of Cambria County, and the Supervisor of the Township of Gallitzin, by having them accept service of notice and to the traveling public by printed handbills posted in public and conspicuous places along the route of the said road, all of us met in accordance with the notices so given and having been just duly qualified according to law to perform the duties of our appointment faithfully, impartially, and impartially, we proceeded to view the said piece of road, beginning of the opinion there was occasion for changing parts of the said road at three several places hereafter mentioned and more particularly described: We proceeded to lay out three new sections of road, intended to supply three separate sections of the said road which we suggest should be vacated owing to the exceedingly steep grades which we feel can be lessened by supplying the new sections of road, to a great extent lessened.

The said piece of road proposed to be vacated take the following courses and distances: The first the most Northernly section proposed to be vacated beginning at a point 75 ft. S of a bridge over a small stream, on or adjacent to the lands of the Altoona Coal and Coke Company, and thence S. 4 degrees N. 75 ft. thence S. 18 degrees E. 1550 ft. thence S. 11 1/2 degrees E. 340 ft. the same to be supplied by a piece of road between the same points running from the place of beginning S. 21 1/2 degrees E. 1115 ft. thence S. 18 degrees E. 490 ft. thence S. 4 3/4 degrees N. 375 ft. to the point of ending of the first section of road proposed to be vacated.

Second piece of road proposed to be vacated: Beginning at a point located by running along present Sup road: from the point above mentioned. S. 14 degrees E. 950 ft. S. 3 degrees E. 400 ft. S. 14 degrees E. 1225 ft. which said point is located in the public road just South of the residence of Thomas Myers and the same strip of road proposed to be vacated extending from this point S. 29 degrees E. 400 ft. S. 15 1/2 degrees E. 200 ft. S. 30 minutes E. 172 ft. thence S. 11 degrees East 75 ft. This section of the road to be supplied by a piece of road between the same points, Beginning at a point on the Thomas Myers property, just above mentioned running thence S. 45 degrees E. 193 ft. S. 25 degrees E. 400 ft. and 11 1/2 degrees E. 308 ft.

Third piece of road proposed to be vacated: Beginning at a point 734 ft. along the course last mentioned from the place of ending of the second piece of road proposed to be supplied and vacated. This piece of road proposed to be vacated extending thence along the same course namely S. 11 degrees E. 500 ft. thence S. 3 degrees N. 375 ft. to a point in the Sup road, just North of the residence of Mary Deegan, and this piece of road to be supplied by a strip of road extending between the same points and running from the place of beginning of last mentioned piece of road S. 17 1/2 degrees E. 500 ft. thence S. 11 1/2 degrees N. 360 ft. to the place of ending of the road proposed to be vacated.

Said piece of road intended to supply the three several pieces suggested to be vacated passing through the lands of Altoona Coal & Coke Company, D. Bluebell, Thomas Myers, & Mary Deegan.

Report of Viewers

To the Honorable M. B. Stephens, President Judge of the Court of Quarter Sessions of Cambria Co.

We the undersigned, Members of the Board of Viewers of Cambria County, appointed by your Honorable Court, to view and determine as to the propriety or necessity of vacating a Portion or piece of road in East Carroll Township, Cambria County, Pa and supplying another piece of road, instead thereof between the places of beginning and ending of that portion proposed to be vacated as noted in the Order of Court hereto attached, respectfully report:-

That having given due notice of the view and, of the time and place of meeting of the Viewers to the Commissioners of Cambria County and the Supervisors of East Carroll Township by having them accept service of notices hereto attached and to the travelling public by printed hand-bills posted in public and conspicuous places at and near the termini of the piece of road proposed to be vacated and supplied; All of us met in accordance with the notices so given and having been first duly qualified according to law to perform the duties of our appointment, faithfully, impartially and to the best of our judgment and ability, we viewed the premises and are of the opinion that a change in the road bed between these points of beginning and ending is necessary for the convenience and safety of the travelling public. A plot or draft showing the location of the piece of road now in use and also the location of the new stretch of road suggested to be opened for public use instead of that portion of road now in use is hereto attached and made part of this report; and shows the portion of road proposed to be vacated beginning at a Point 180 feet Southwest of the Bradley Junction and Carrolltown Branch of the Pennsylvania Railroad and ending at a point 500 feet North-east of the said branch of the P. R. R. as shown on the attached draft and noted as a piece of road proposed to be vacated and the portion of road as laid out to supply the same beginning at the said point South west of the road crossing and running thence South 81 degrees East 367 feet and thence North fifty five degrees forty-five minutes East 1390 feet to the place of ending of the piece of road proposed to be vacated.

By thus changing the location of the road bed the present steep grade on either side of the railroad will be eliminated and the travelling public will have an opportunity of crossing said railroad track at a point from which they will have an opportunity of observing the approach of trains from either direction which will greatly be to their safety and advantage.

Having failed to secure a release of damages from Casper Wolfe through and over whose lands the piece of road proposed to be supplied has been laid out, we have assessed his damages at forty five dollars (\$45.00).

Report of Viewers

We the undersigned Viewers appointed by the annexed order of the Court to view the road within
mentioned respectfully report, that we, have been duly sworn as members of the permanent board

A.D. 1913 at 8:30 A.M. and viewed the premises, and are of the opinion that there is an occasion for a
public road, as prayed for by the petitioners and therefore we proceeded to lay out the same having due
respect to the shortest distance, the best ground for the road and in such manner as would be as near
practically agreeable to the desire of the petitioners and at the same time do the least injury to private
property. A plot or draft of said road as laid out by us is hereto attached and made part of this report

Report of Viewers

To the Honorable Martin B. Stephens, President Judge of the Court
of Quarter Sessions of Cambria County:

We, the undersigned members of the Board of Viewers of Cambria
County, appointed by your Honorable Court upon the attached Order to
view a public road lying partly in the Township of Middle Taylor, Cam-
bria County, for the purposes stated in the said Order, respectfully report:

That having given due notice of the view and of the time and
place of meeting of the viewers, to the County Commissioners of Cambria
County and to the Supervisors of the Township of Middle Taylor by having them
accept service of notice hereto attached and to the Supervisors of the Township
of West Taylor by sending a copy of said notice to Alfred M. Adams, one
of the Supervisors of said last mentioned Township, who reported to the
Viewers that he had received said, and to the public by printed hand-
bills posted in public and conspicuous places at and near either
termini of the said road; we met in accordance with the notice so
given and having been first duly qualified according to law to perform
the duties of our appointment faithfully, impartially and to the best of our
judgment, we viewed the premises of and of the opinion that the public
road mentioned in said order and hereafter described should be vacated.

Said highway, of which a plat or draft is hereto attached and made
a part of this report, Beginning at a point in the Township of West Taylor
in a public road leading from Johnston to the Stone Pike, known as the Pole
Hollow Road, at the residence of Frank Vellay, the said point being 5286
feet from the intersection of said Pole Hollow Road and the Johnston and
Indiana Turnpike, both of which are public highways now opened
and used by the traveling public from which said point the road takes the following
courses and distances: S. 72 degrees E. 1258 feet; S. 21 1/2 degrees E. 88 feet; S. 34 degrees W. 326
feet; S. 7 degrees W. 198 feet to the line bounding the Township of West Taylor and
Middle Taylor thence continuing in the Township of Middle Taylor S. 11 degrees E. 196 feet;
S. 57 degrees E. 276 feet; S. 75 1/2 degrees E. 366 feet; East 387 feet N. 54 degrees W. 183 feet;
N. 32 degrees E. 267 feet; W. 81 degrees E. 120 feet; W. 72 degrees E. 361 feet; N. 46 degrees E. 495
feet; S. 55 1/2 degrees E. 300 feet and S. 13 1/2 degrees E. 394 feet to a point in Middle
Taylor Township on a public road leading from Johnston known as the Benshoff
Hill Road near the residence of Edward Brehm at a point at the intersection of said Ben-
shoff Hill Road with another public highway leading from Benshoff Hill Road to the
road known as the Johnston Dam Road, which said last mentioned roads are
all public highways now used by the public.

In the opinion of the viewers the said road is unnecessary as
a public highway and furthermore for the most part it is of excessive
grade, in a number of places exceeding twelve degrees and the ex-
pense of maintaining the same in condition to render it safe to traffic
would be excessive.

Report of Viewers

Sept 29. 1913

To the Honorable M. B. Stephens, Pres. Judge of the Court of Quarter Sessions of Cambria County.
We, the undersigned, members of the Board of Viewers of Cambria County, appointed by your
Honorable Court, upon the attached order to view a public road from a point eight hundred and seventy
feet from the intersection of Beaver Run road with the road leading from Dumbo to Portage in
Adams Township, to a point at the intersection of the public road leading to Lovett with the South
Buck Branch of the P.R.R. at Ruthtford Station, as noted on the Order hereto attached, respectfully report:
That having given due notice of the view and of the time and place of meeting of the Viewers
to the County Commissioners of Cambria County and to the Supervisors of the Township of Croyle and Adams
by having them accept service of notices hereto attached and to the travelling public, by printed hand-bills,
posted in public and conspicuous places at and near the termini of the proposed piece of road
to be viewed; we met in accordance with the notices so given and having been first duly qualified
according to law to perform the duties of our appointment fully, impartially and to the best of
our judgment; we viewed the premises and are of opinion that the prayer of the petitioners should be
granted and the piece of road beginning at a point in Croyle Township on the road leading from
Lovett to land of the Logan Coal Company known as the Lovett road, at its intersection with the right
of way of the P.R.R. at Ruthtford crossing which takes the following courses and distances, should be
vacated: N. 52 degrees E. 218 feet; N. 81 degrees East 154 feet; S. 35 degrees E. 236 feet; S. 60 degrees E. 250 feet
S. 86 degrees E. 270 feet; N. 77 degrees E. 95 feet; N. 71 degrees E. 270 feet; N. 63 degrees E. 140 feet; N. 36 degrees
E. 250 feet; 29 degrees E. 276 feet; N. 59 degrees E. 404 feet; S. 77 degrees E. 195 feet; S. 68 degrees E. 145 feet; S. 52 degrees E.
165 feet; S. 64 degrees E. 315 feet to the point of ending noted in the attached order and that instead
thereof a piece of road taking the following courses and distances between the same points of
beginning and ending, should be supplied as follows: S. 46 degrees E. 607 feet; S. 75 degrees E. 532 feet
N. 87 degrees E. 724 feet; N. 76 degrees E. 322 feet; N. 53 degrees E. 700 feet; N. 54 degrees E. 895 feet; N.
51 degrees E. 662 feet to the place of ending.

Said piece of road proposed to be vacated passes wholly through and over rough and unimproved land,
portion of which said road have a steep grade, whereas the piece of road proposed to be supplied, would
be more convenient for the travelling public, of a very easy grade for the whole distance and the cost
of constructing the new road would scarcely equal the expense necessary to repair the present
old road.

A plot or draft, showing the location of the piece of road proposed to be vacated, as well as the strip
or piece of road proposed to be supplied is hereto attached and made a part of this report.

Report of Viewers.

To the Honorable Martin Bingham Stephens, President Judge of the Court of Quarter Sessions of Cambria County Pa. We the undersigned members of the Board of Viewers of Cambria County, appointed by your Honorable Court upon the attached order for the purposes therein set forth, respectfully report: That having given due public notice of the view and of the time and place of meeting of the Viewers, to the Commissioners of Cambria County and to the Supervisors of Blacklick Township by notices of which they have accepted service and which are hereto attached, and to the travelling public by printed hand bills posted in public and conspicuous places at and near the terminus of the road to be viewed; and in accordance with the notice so given, all of us met and having been first duly qualified according to law to perform the duties of our appointment faithfully, impartially and to the best of our ability we viewed the premises and are convinced that for the convenience of the public the prayer of the petitioner should be granted and therefore we have laid out a piece of road suggested to be supplied instead of the piece of road petitioned to be vacated and herewith return a plot or draft showing the location of the piece of road proposed to be vacated and also the piece of road intended to supply the same. Where plot or draft is made a part of this report and returned for public use. The piece of road which we are of the opinion should be vacated begins at the place of beginning noted on the attached order marked "A" on the draft, and runs thence North 64 degrees East 317 feet to the place of ending noted on said order, and the piece of road laid out to supply that vacated takes the following courses and distances between the points of beginning of the short strip of road suggested to be vacated in account of the exceedingly heavy grade which renders the road, even more at its best of condition, wholly unsafe for travelling viz North 47 degrees 37 minutes East 163 feet; North 61 degrees 30 minutes East 102 feet; North 39 degrees 30 minutes East 106 feet; North 17 degrees East 86 feet; North 4 degrees West 30 feet; North 55 degrees West 26 feet; South 44 degrees West 132 feet; South 68 degrees West 97 feet; South 81 degrees West 285 feet to the place of beginning noted on said order. Said road as laid out passes entirely over property of the heirs of Amos A. Chappis, from whom we failed to secure a release of damages and therefore we have assessed them his heirs and forty five dollars damages.

John L. Singer, one of the viewers named in the attached order and who died Aug 4, 1913 was present at the view, helped layout the route above noted and agreed with the other viewers that this report should be made to the Court and also helped by the amount of damages noted.

That having given due notice of the view, and of the time and place of meeting of the Viewers, to the
Commissioners of Cambria County and the Supervisors of Cambria Township by having them accept

is necessary and we have laid out a road between the said points as follows, viz: Beginning at a point
on the Cambria and Nanty Glo. road opposite the mail box of George W. Jervis, located where
the road leading past the farm house of said Jervis branches off the said Cambria road and

road leading from Ebensburg to Colver, via Mary Powell farm, about 240 feet Northward from the barn
on the farm (formerly known as the Tommy Williams farm) now owned by the Ebensburg Coal Co.
Said points of beginning and ending the same as named and more definitely fixed by courses
and distances in the attached order of Court. A Plot or draft showing the location of the above
described road is hereto attached, made a part of this report and herewith returned for public use.

Report of Viewers

To the Honorable the Judges of the Court of Quarter Sessions of Cambria County, Pa.

We the undersigned members of the Board of Viewers of Cambria County, appointed by your Honorable Court upon the attached order, for the purpose therein specified, respectfully report: That having given due notice of the record of the time and place of meeting of the viewers, to the commissioners of Cambria County and to the Supervisors of the Township of Croyde, by having them accept service of notice hereto attached, and to the travelling public by printed hand bills posted in public and conspicuous places in the vicinity of the proposed new road; and having been first duly qualified according to law to perform the duties of our appointment impartially and to the best of our judgment skill and ability; all of us met at the time and place appointed and having gone over the situation carefully, we are of the opinion that only a portion of the road as petitioned for is necessary for the accommodation and convenience either of those residing in the immediate vicinity of the road petitioned to be laid out and opened for public use or for the travelling public; therefore we recommend that a public road to lead from the South Fork Borough terminus of Luke Street for the following courses and distances viz: North 12 degrees 50 minutes West 514 feet, North 30 minutes West 280 feet, North 13 degrees West 296 feet, North 17 degrees 30 minutes East 274 feet, to a point opposite the Black Catholic Cemetery, is necessary for the convenience and accommodation of a great many citizens of the Township and should be opened and maintained as a public thoroughfare. Said piece of road is designated on the attached draft as lying between points marked "A" as lying between points marked "A" and "B" but that portion of the road petitioned for, which lies between the points marked "B" and "C" on the plot or draft hereto attached and made a part of this report, is not necessary for a public thoroughfare and if opened would be of little use and would be burdensome to the taxpayers of the Township to construct and to maintain. Said point leading as noted on the petition and order views situate North 23 degrees 5 minutes West from point "B" on the attached draft on the public road leading from Mineral Point to Runawayhill.

Witness our hands this 5th day of December A. D. 1914.
